

Applauding the 2011 ANF Scholars

The American Nurses Foundation (ANF) applauds the 2011 Nursing Research Grants (NRG) recipients. This year, ANF awarded over \$194,000 to these nurse researchers whose work to promote the health of the public is at the heart of ANF's mission. ANF is grateful for the generosity of supporters over the last 56 years who have made it possible to award over \$4 million to more than 1,000 beginning and experienced nurse researchers.
